crazy about cleaning

# CLICK'M C

## CLICK'M C FRAME

Highly effective & innovative mopping system. Perfect for areas with demanding hygiene requirements.

- ✓ Innovative magnetic locking system.
- ✓ Easy assembly. The mop slips onto the frame and magnetically attaches to the plate with one click.
- ✓ Hygienic, hands-free removal of the mop from the frame after use.
- ✓ Practical & smooth design, preventing the accumulation of dirt on the frame.
- ✓ The frame is easily cleaned and can be disinfected if required.
- ✓ Lightweight and ergonomic in use.

## CLICK'M C MOPS

### TWIST MOP

Highly qualitative mop for damp cleaning of hard floors.

- ✓ Recommended for use on smooth floors.
- ✓ Excellent cleaning power with streak-free results.
- ✓ Rapid drying time for quick floor cleaning.
- ✓ The microfibre is stitched over the edges of the mop to optimize dirt collection and maximize cleaning performance.
- ✓ Integrated colour coding ribbons help ensure correct area and surface use.
- ✓ Composition: 50% microfibre & 50% polyester.

### ALLROUND MOP

Highly qualitative mop for dusting and damp cleaning of hard floors.

- ✓ Designed specifically for use in areas with demanding hygiene requirements, such as hospitals or care centres.
- ✓ Excellent cleaning power & highly absorbent.
- ✓ The long microfibre threads make the mop perfectly suitable for cleaning uneven surfaces, such as stone or tiled floors.
- ✓ Designed for pre-soaking.
- ✓ Integrated colour coding ribbons help ensure correct area and surface use.
- ✓ Composition: 50% microfibre, 40% viscose & 10% polyamide.

### BASIC MOP

Qualitative, light mop for cleaning hard floors.

- ✓ Recommended for use on lightly soiled smooth floors.
- ✓ Also suitable for damp cleaning of walls and doors.
- ✓ Excellent cleaning power with streakfree results.
- ✓ Integrated colour coding ribbons help ensure correct area and surface use.
- ✓ Composition: 100% microfibre.

# UNIQUE & SIMPLE

## ✓ Ergonomically designed for comfortable and easy use

The Click'M C unique mopping system is lightweight and ergonomic.

1. Slip the frame on to the pocket of the mop.

2. Lock the mop by pushing down on the handle.

## ✓ Colour coding aids correct use

Every mop has 4 integrated coloured ribbons. This allows you to mark and identify each mop and its application area.

## ✓ Clean and unique design

> The smooth and tight design prevents dirt from adhering to the frame and makes it easy to wash.

> The mops are finished with a sturdy mesh, so that dirt is removed quickly from the mop's pocket during washing.

## ✓ Hygienic removal of the mop

1. Simply release the clip with your foot to loosen the mop.

2. The mop simply slides from the frame without the operator needing to handle it.
