

Product information

TwistMop Duo and Triko

Characteristics

- Fast cleaning of the floor;
- No spreading of dirt;
- Easy to rinse;
- Especially suitable for larger floor areas;
- Efficient use because of colour coding.

The Greenspeed® TwistMop Duo and Triko are used for large floor areas. Both mopping systems have 'flaps' and are used in combination with a breakframe, a wringer and - if necessary - a double bucket combination. The only difference is that the TwistMop Duo has two connection holes, while the Triko has three.

The 8 mm long piles also make the Duo and Triko perfectly suitable for the cleaning of uneven floors. Even non-skid floors do not pose a problem for the TwistMop Duo and Triko. The TwistMops consist of 50% perfectly cleaning microfibre and 50% polyester, which reduces the friction and ensures the smooth action. While cleaning large, hard floors the mop may be rinsed easily and quickly in between.

Specifications

Colour	green (with coloured labels)
Dimensions	40 cm (13 x 43)
	50 cm (16 x 53)
Composition	50% microfibre, 50% polyester
Weight	± 130 grams (40 cm)
	± 195 grams (50 cm)
Filling	2 mm foam (DUO) + 2x microfibre cloth + 1x non-woven cloth
