

Product information

TwistMop Supreme

Characteristics

- high-cleaning capacity;
- no spreading of dirt;
- fast and easy replacement due to Velcro;
- loop for hygienic removal of the mop;
- efficient and hygienic because of colour coding.

The Greenspeed[®] TwistMop is an ace in cleaning hard floor areas, thanks to the 8 mm long pile. The TwistMop Supreme is the long-haired brother of the [TwistMop](#). The TwistMop Supreme mop is also made of twisted material, but has a 13 mm long pile, which is the reason this mop can pick up even more moisture.

The TwistMop Supreme is ideal for floor areas with a lot of relief, such as studded rubber floors. On floors with a high resistance like non-skid floors, the TwistMop Supreme also works perfectly. The long pile and the combination of 50% microfibre, with excellent cleaning capacities, and 50% polyester will ensure less friction.

Thanks to the loop at the side, you don't have to touch the dirty surface when replacing the mop. This replacement is fast and easy because the backing of the TwistMop Supreme is made of Velcro. Colour coding guarantees efficient and hygienic use.

Specifications

Colour	green (with colour coding labels)
Dimensions	45 cm (41/45 x 13)
Composition	50% microfibre, 50% polyester
Weight	± 145 grams
Filling	1x microfibre + 2x PET non-woven cloth
