

## Product information

### *Floor Injection Tool (FIT)*

### *Characteristics*

- precisely dosed moistening of the mop;
- simple and quickly employable;
- prevents making 'method mistakes';
- simple and ergonomic use;
- more clean square meters in less time.

The Greenspeed<sup>®</sup> Floormop Injection Tool or FIT, introduces a completely new method for daily cleaning of hard floors with a microfibre mop. The FIT moistens your flatmop through spray-nozzles. This simple system ensures effective and ergonomic cleaning.

A contemporary design and the use of synthetic materials provide the FIT with a professional appearance. Furthermore, the FIT prevents making 'method mistakes'. Thanks to four dosing positions, the FIT moistens your microfibre mop precisely corresponding with each type of hard floor. This way, you will be able to clean more square meters in less time.

The FIT can also be supplied without wheels and pushbar, for placement on the plateau of a trolley or on the special Greenspeed<sup>®</sup> [Caddy FIT](#).

### *Specifications*

Colour	green/grey/black
Dimensions	120 (l) x 60 (w) x 115 (h) cm
Composition	high-quality synthetic material and aluminium
Weight	± 13 kilos
