

Product information

Caddy 50

Characteristics

- Suitable for the Greenspeed® microfibre system;
- Robust;
- Impact resistant synthetic material;
- Modular construction.

The Caddy 50 is the smallest and most compact trolley in the Greenspeed® Caddy series. Because the Caddy 50 is very manoeuvrable it is often used in small spaces. This practical construction makes the Caddy 50 also very suitable for small cleaning activities.

The Caddy 50 is a robust and modular trolley made of synthetic material, completely adapted to the use of the Greenspeed® microfibre system. The trolley can be adapted to the cleaning tasks or the spaces where it will be used

Other models in this Greenspeed® series are [Caddy 200](#) and [Caddy 100](#) and the more compact model [Caddy 75](#).

Specifications

Colour grey
Dimensions 74 (l) x 54 (w) x 110 (h) cm
Composition impact resistant synthetic material
Weight ± 11 kilos
