

Product information

Caddy 100

Characteristics

- Suitable for the Greenspeed[®] microfibre system;
- Robust;
- Impact resistant synthetic material;
- Modular construction.

The Greenspeed[®] Caddy 100 is a complete, modular, synthetic trolley, that is completely dedicated to the use of the Greenspeed[®] microfibre system. The Caddy 100 is suitable for interior and sanitary cleaning activities. Due to the modular construction the trolley can be adapted to the cleaning task and area where it will be used. The waste bag holder may be replaced by a double bag holder for the separation of waste.

Other models in this Greenspeed[®] series are [Caddy 200](#) and the more compact models [Caddy 50](#) and [Caddy 75](#).
