

Product information

TwistMop

Characteristics

- Quick use and short drying time of the floor;
- High-cleaning capabilities;
- No spreading of dirt;
- Quick and easy change due to use of Velcro;
- Loop for removal of the mop;
- Efficient use because of colour coding.

The Greenspeed[®] TwistMop is a star for the cleaning of hard floors. The long 8 mm piles make the TwistMop perfectly suitable for uneven floors, such as uneven tiled floors.

Some mops are difficult to use on non-skid floors because of the high friction. The TwistMop however, may also be used on these floors. The TwistMop consists of 50% perfectly cleaning microfibre and 50% polyester, which reduces the friction and ensures a smooth action.

The loop at the side ensures that the dirty surface does not have to be touched while changing mops. This changing is quick and simple because the backing of the TwistMop is made of Velcro. Colour-coded mops guarantee an efficient and hygienic use.

The TwistMop is available in different sizes.

Specifications

Colour	green (with coloured labels)
Dimensions	30 cm (28/32 x 13)
	45 cm (42/46 x 13)
	60 cm (56/60 x 13)
Composition	50% microfibre, 50% polyester
Weight	± 80 grams (30 cm)
	± 120 grams (45 cm)
	± 150 grams (60 cm)
Filling	2 mm foam + 2x microfibre cloth and 1x non-woven cloth
