

Product information

Flatmop plate with flexible coupling

Characteristics

- Multi-functional because of flexible coupling;
- Lightweight;
- Very flat (no accumulation of dirt);
- Easy to clean

The Greenspeed® Flatmop plate with flexible coupling has been especially designed for efficient and ergonomic use during daily cleaning. This Flatmop plate consists of synthetic material and durable aluminium, reducing the weight as much as possible. The Flatmop plate has Velcro on the bottom onto which a flatmop can easily be attached. The plate is equipped with a coupling with two pushpins, that fit onto a 22 mm handle equipped with holes.

Due to the flexible coupling, the Flatmop plate is easy to use. When the flexible coupling is fixed completely with the two pins, to-and-from as well as up-and down movements pose no problems. This makes the Flatmop plate suitable to clean windows, walls and ceilings.

The Flatmop plate with flexible coupling is available in different sizes.

Specifications

Colour	aluminium/green
Dimensions	23 cm (19/23 x 9)
	40 cm (36/40 x 9)
	55 cm (52/57 x 9)
Composition	aluminium and synthetic material
Weight	± 186 grams (23 cm)
	± 282 grams (40 cm)
	± 370 grams (55 cm)
