

Pad Dispoconnection Velcro - 40 cm

GENERAL

Pad holder for dusting mops or disposable mops.

- Low water absorption values
- Inert to a wide range of chemicals
- No odour
- Provides a greater softness and maximise cleaning.

This connection pad can be used to connect dispomops to the Greenspeed velcro frames. This pad is used to provide greater softness and maximise cleaning on any surface by disposable mops.

It is a hygienic tool since it's hydrophobic (doesn't absorb water) so bacteria can't grow inside it.

USAGE

Once in place on the frame, it can stay there its entire life (4 to 6 months) and is disinfected with the frame by soaking in disinfectant solution.

The Dispoconnection pad velcro can be cleaned with a brush, we don't recommend to wash it in a machine because it will be deformed.

Do not wash

Pad Dispoconnection Velcro - 40 cm

TECHNICAL SPECIFICATIONS

Dimensions product (LxHxW) 40 x .5 x 9.5 cm

Foam composition: Closed cell polyolefin foam

Foam main specifications:

- Low water absorption values
- Inert to a wide range of chemicals
- No odour

Counterpart: Three hydrophobic layers

LOGISTIC DATA

Product

Article	3101030
Unit	Piece
Dimensions	40 x .5 x 9.5 cm
Gross weight	22 g
Net weight	21 g
EAN code	8716254002197

Packing

Quantity per packing	10
Dimensions	40 x 1 x 9.5 cm
Gross weight	45 g
