Sprenkler Ergo Handle with Integrated Reservoir - 130 cm

GENERAL

Aluminium handle with an integrated water reservoir.
- Controlled water use for the shortest possible drying time.
- No more lugging buckets.
- High mobility.
- Easy to use with an ergonomic & soft handle.
- Rubber grip is also anti-slip helping the handle to stay up against the wall.
- The reservoir can contain 450 ml water, which is plenty to clean up to one-hundred square metres.

The Sprenkler has an aluminium handle with an integrated water reservoir. This simple system means no more lugging of buckets nor fuss with wringing. This makes things faster and above all more efficient when caring for a solid floor.

Simply press the handle and a controlled quantity of water is sprayed over the surface. The water pressure in the handle ensures three powerful jets at the base of the Sprenkler, even if the reservoir is already more than 70% empty.

The Sprenkler is a perfect partner for cleaning large surface areas, such as entrance halls and corridors. However, it is equally handy for places that are challenging to clean, such as stairwells and sanitary facilities.

USAGE

1. Unscrew the green cap on top of the handle.
2. Fill the reservoir with tap water using the enclosed fill bottle. Screw cap back.
3. Press the green cap on top of the handle to dispense tap water behind the mop through the triple-spray nozzles.
4. Spray and wipe the floor using a circular movement. Start from a corner and wipe the floor clean towards the door.
5. To ensure a long lasting use of the Sprenkler handle, empty the reservoir after each use.

Sprenkler Ergo Handle with Integrated Reservoir - 130 cm

TECHNICAL SPECIFICATIONS

Dimensions product (LxHxW)	131 x 5 x 5 cm

LOGISTIC DATA

Product

Article	3301205
Unit	Piece
Dimensions	131 x 5 x 5 cm
Gross weight	400 g
Net weight	376.5 g
EAN code	8716254008045

Packing

Quantity per packing	10
Dimensions	151 x 8 x 16 cm
Gross weight	4480 g
EAN code	8716254008052

Pallet

Quantity per pallet	730
