

Crystal Liquid - 10,5 l

GENERAL

3080 0016

Dishwasher liquid for industrial machines.

- Powerful degreasing.
- Cleans hygienically.
- For automatic dosing machines.
- Safe to use in industrial machines.
- Nordic Swan Ecolabel.

Crystal Liquid is an ecological, strongly alkaline dishwasher detergent for professional use. Crystal Liquid can be used in single-tank and tunnel dishwashers. This product contains a combination of strongly alkaline ingredients and a readily degradable limescale remover for rapid removal of all food residues such as proteins, starches and fats. It prevents limescale deposits in the machine when used at the proper dosing level.. Crystal Liquid does not contain any colouring agents or perfumes. Crystal Liquid is free from chlorides and other halogens, phosphates and badly biodegradable phosphate replacements, and petrochemical-based surfactants. All ingredients from non-mineral origin are completely biodegradable.

pH	13,5
Cleaning Power	Super powerful

USAGE

Use with an automatic dosage system for optimal usage. Respect the recommended washing temperature of 50 - 65°C, optimise dishwasher loading and do not use more than the recommended dose of detergent. Use Crystal Liquid preferably in combination with rinse agent Crystal Rinse. Not recommended for use on aluminium dishes and other alkali-sensitive materials such as copper, brass, rubber... Keep Crystal Liquid in a frost-free location. Dispose of this product and its container in a waste collection center (according to local regulations). 100% recyclable packaging.

Only use this product for its specified purposes. If in doubt, first test the product in an inconspicuous area. Greenspeed is not responsible for any damages if the product is used incorrectly. Consult the Safety Data Sheet (SDS) for additional information.
