Synbiotic all- purpose cleaner for daily use with environmentally beneficial effect.

- Low-foaming all purpose cleaner
- For cleaning water-resistant surfaces and floors in interior and sanitary
- Cleans surfaces and actively combats odours
- Fresh perfume
- EU Ecolabel & Cradle to Cradle Certified GOLD

Currently, too many products are still used that contain chemicals with a harmful effect on humans and the environment. Greenspeed offers a solution to this problem: synbiotic cleaning products containing pre and probiotics. The probiotics remove organic dirt, even deeply embedded in the surface, delivering quick and long-lasting clean results. Along the way, they also neutralise bad odours. When they re-enter the ecological cycle after use, they actively help to clean our water and help to maintain a natural microbial balance. The prebiotics create an extra source of nutrition for the probiotics and as well for good bacteria that are naturally found on the surface. The effect of the probiotics is therefore accelerated and the microbial balance on the surface is maintained. Contrary to many chemical cleaning products, synbiotics products are very safe to use. The micro-organisms are 100% natural.

Synbio Multi can be used to clean interiors, sanitary areas and floors and thus provides the complete solution for your daily cleaning.

pH	7
Cleaning Power	Powerful

USAGE

Shake well before use. Prepare a 0.5 % solution by adding 25 ml (2 dosingcaps) of Synbio Multi to a bucket containing 5 l of water, or 40 ml (4 dosingcaps) to 8 l of water. Clean the surface with a sponge or cloth. Rinsing is not necessary. In case of heavy soiling, the concentration can be increased 1 %.

Store the product between 10°C and 40°C, protected from direct sunlight.

Only use this product for its specified purposes. If in doubt, first test the product in an inconspicuous area. Greenspeed is not responsible for any damages if the product is used incorrectly. Consult the Safety Data Sheet (SDS) for additional information.
